BLENDDED

With our Blended learning programs, participants can complete their training and written tests through www.protrainings.com. After successfully completing the online training and written test, the participant schedules their hands-on practice and skill evaluation with a currently certified Instructor from ProTrainings.

All blended certificates have a label of "Blended" or "Blended Plus" at the top right of the front of the card. Roy Shaw's name is always listed as either the "instructor" (for Blended) or "curriculum instructor" (for Blended Plus) on all blended certificates. Under the skill evaluator heading, the name and phone number of the instructor who conducted the hands-on portion of the training is listed.

After the student passes the hands-on skills testing portion with their instructor, the instructor may optionally attest whether the practical skills were done through a *"live, in-person evaluation"* or a *"live, remote evaluation."* All skill evaluations are considered "live" because each student is guided by an instructor who evaluates the hands-on practice, demonstration, and skills testing. Students may also ask questions throughout the session.

After the student passes the hands-on skills testing portion with their instructor, a digital copy of their certificate will be sent to their email. Students have 24/7 access to their certification card, continuing education statement, wall mount, and printed cards.

BLENDED PLUS

A Blended Plus certificate indicates a higher level of quality control and scrutiny during the skill evaluation process.

On this certificate, the phrase "skill evaluator" has been replaced with "instructor trainer" to indicate that skill testing was performed by one of our team of screened Instructor Trainers, who are more closely monitored than a typical skill evaluator. Blended Plus certificates also state that the hands-on portion of the demonstration and skill testing were completed through a "verified live evaluation" because these courses come with added quality assurance, including, but not limited to, the following:

- Student identity verification through billing information, using PayPal or a Credit Card for payment, rather than cash
- Verification that the student in the skill evaluation is the same student who took the test since the same login is used for both of these tasks
- Guaranteed accuracy of evaluation date and time since all skill evaluations by our Instructor Trainers occur in a ProTrainings-controlled environment
- Upholding a more consistently high standard since all evaluations are handled by in-house Instructor Trainers who have been extensively trained and vetted to have a high level of expertise
- Regular monitoring and review of Blended Plus Instructor Trainers for quality assurance by our compliance department

After the student passes the hands-on skills testing portion with their instructor, a digital copy of their certificate will be sent to their email. Students have 24/7 access to their certification card, continuing education statement, wall mount, and printed cards.

How does a Blended Course Work?

100% ONLINE

The online-only certification card can be obtained by individuals who are not required to complete hands-on training for their workplace or regulatory body. The online-only certification card will be empty in the area where the classroom card says “CLASSROOM” and the blended card says “BLENDED.”
